1 During the current year, we have already applied for additional grant of Rs.14,709/- which included Rs.4,300/- under 'Medical' over the sanctioned grant. The latest review of the Excess and Saving in the sanctioned budget does not show any surplus. The Resident has thus no money at his disposal to spare. It may be possible to find money in the next year's budget.

2 If the Residency Surgeon cannot get on with the present tube for another month or two we will have to ask Polindia for a further additional grant of Rs.2,800/- under 'Medical' which will bring the total excess over sanctioned grant under this Head to Rs.7,100/-. Unless the matter is extremely urgent, it seems undesirable to ask for a further additional grant so late in the year, especially as this expenditure does not seem to be one which could not have been foreseen.

3 The Residency Surgeon may see these notes U/O and say whether he cannot postpone the purchase until early next year.

Last year a Quartz Burner was purchased for Rs.260/-. The price of the burner now proposed to be purchased is Rs.280/-. The rise in price is probably due to war. It will be seen that last year a rebate of Rs.10/- was offered by the firm for the damaged burner, but subsequently the Residency Surgeon decided to retain the damaged burner for use in any emergency breakdown, and the rebate was not realised. The Residency Surgeon does not mention whether any rebate is offered for the burner now proposed to be renewed, or whether it will also be used in cases of emergency. Presumably, he wants to retain this damaged burner also. In that case, there will be two damaged burners for emergency purposes.

Att 17/9.

To

The Residency Surgeon, Bangalore.
U/O No.R.F.130-40 dated 17th Septr.1941.

The Quartz Burner in question serves on the average for 800 to 900 hours. After this period it usually burns out. The present one is burnt out and it is of no use.

The firm now no longer gives any credit to burnt out burners as, it is presumed, they cannot send them abroad for alteration.

The cost of the Quartz Burner purchased in 1941 was Rs.280/-. This has now increased to Rs.607/- probably due to war conditions.

The purchase of the Quartz Burner may be sanctioned as it seems to be essential for the efficient working of the hospital.

SN 29

There are outstanding advantages in the purchase from a firm acquainted with the actual apparatus of an Institution especially as they are locally available for supervision while in use and for periodical inspections. As has already been explained by the Hon'ble the Resident in his letter to the Government of India it is most important that the whole indent should be in the hands of a Company who are always available for service of that instrument and who maintain a stock of spare parts locally. Moreover the one we have ordered viz., K.X.11-33 Unit is a most improved, modern and up to date type which includes latest serial radiography, planigraphic attachment and mass radiography. Should we in future feel it necessary a photo Roentgen unit can also be attached. Their previous Equipment and servicing have always given us great satisfaction over a period of many years at minimum cost and delay in execution. The proposed whole unit is shock-proof and space saving with a wide range of service.

I am firmly of the opinion that especially for an up to date, modern and efficient Hospital which we are contemplating to build, it is imperative that we should have a first class and up to date improved model X-ray Equipment - in fact the very best available. It would be disastrous to have a strange instrument as in the event of its breakdown the whole work of this special department would be suspended with serious detriment to the efficient running of the Hospitals. Efficient local service is most essential in times of any breakdown. It is therefore infinitely preferable to have the supply from the Victor X-ray Corporation whose quotation is for the complete equipment with all accessories and attachments They have also agreed that if at the time of delivery the prices are lower the Unit will be billed at the prevailing rate. In any case the increased cost, if any,

will be more than compensated by the assurance that it will be of an excellent quality and above all with efficient local service available at all times.

Para 3 in the Express letter is not understood. The installation that was fitted in 1929 is still in use but is now very worn and out of date. As mentioned in my letter ~~to~~ to you and also in para 7 of your letter to the Government of India it is proposed to retain this as a standby emergency unit and for minor and superficial X-rays so as to save wear and tear on the new Unit.

On the whole I am very strongly opposed to our taking the installation offered us by the Controller of Stores. Briefly the main reasons for this may be summarised as follows:-

(1) The question of servicing which as mentioned above is most important.
(2) The set ~~offer~~ offered us is not as complete in all its attachments as the set we have ordered. In fact by the time all the necessary attachments are obtained(if they are obtainable at all these days) the cost would be much the same. The staff ~~is~~ are all trained and experienced in Victor X-ray equipment and are expert in the handling of same.
(3) The set we have already ordered and for which the Company have obtained a permit is the very latest type of equipment and best available in the world. There is no doubt that Victor X-ray equipment is of the very best in the world and their servicing organisation has always been most excellent and efficient.
(4) The equipment ordered is complete in every detail and there will be no question of availability or otherwise of spare parts and attachments.
(5) The Victor X-ray Corporation have agreed to reduce their charges if at the time of delivery prevailing prices have in anyway dropped.

Secretary U.O.
No.5506/28A dated 16th Feb 45

Please see S.N.29 and paras 31 to 36 of these notes.

The X-ray equipment mentioned by the P.D.has been offered at Rs.38,750/-while the one ordered from Victor X-ray Corporation costs Rs.57,200/-. Draft to P.D.submitted on the lines of the Resy.Surgeon's notes.

R.S. may see draft u.o. before issue.

Residency Surgeon, Bangalore.
U.O.D.N.2431,dated the 19th Feb.1945.

Since my last letter I sent for the Victor X-ray Corporation's representative and have discussed the matter in further detail.

The main points that have arisen from my conversation are these.-

If this Hospital is fitted with the Watson's apparatus offered by the Phillip's Electrical Co., which has a larger output than the set ordered with the Victor X-ray Corporation serious difficulty would arise in that we would have to alter the main power supply line to the Hospital and also a special Scott transformer would have to be ordered which would very seriously complicate matters. This alone would condemn the idea of buying the Watson's set. Actually there will be no saving in the proposed transaction as although the proposed set would cost Rs.38750/- in contrast with the Victor X-ray set costing Rs.57200/- the fact remains that the Watson's set is very deficient in the attachments and parts as already explained by me in my previous note. Actually if we were to order from the Victor X-ray Corporation the equivalent set that Messrs. Phillips Electric Co., propose to send us, the cost would probably be about the same or even less. In any case it would not be more. The above facts therefore strengthen me in my opposition to consider the question of fitting the Watson's apparatus in this Hospital.

In fact from my personal experience in Rajkot where I did place orders with the agents of Messrs Watsons for their apparatus I would definitely say that we would be most unwise to take on any Watson's apparatus in India. Their services hitherto have always been most unsatisfactory and in the incident mentioned in Rajkot where I purchased a new Diathermy set from them it broke down within a few months of purchase and we were never able to get it right as their agents did not turn up and no spare parts were available. This was pre-War. This might have been an unfortunate exception but it is my own actual personal experience.

You may therefore wish to incorporate these points - all or part of these points - in your letter to Government of India. I have read over your letter and fully approve of it. I would suggest however that especially the point regarding alteration of power line be definitely incorporated in your letter as this alone would be enough to condemn any idea of installing the Watson's set. If you notice in the letter from Phillips Co., to the Chief Controller of Purchase(Munitions), they themselves mention this point.

Secretary U.O.
NO: 5557/28A dated 20-2-45.

I have dictated a new draft, trying to confine our arguments to those which are likely to carry weight. The main and overriding point is the unsuitability of the mains supply in the Hospital for the set offered by the Govt. of India, and I have tried to emphasise this, making the other points subsidiary.

Recorded 30 JAN. 1940
Diary No. 1169
File No.

THE Secretary
to the Hon'ble the Resident
in Mysore, BANGALORE.

SIR,

Subject:—

X-Ray Tubes.

S.N.4
C.P.S
F.1121-36 R

I have the honour to invite your attention to the proceedings of the Hon'ble the Resident No.F. 1121-36/R.O.II dated the 19th of September 1936, and to report that XP-4 Air-cooled tube therein sanctioned has become punctured and unserviceable, after over 3 years' continuous use and the taking of 6,565 X-ray photographs and a large number of screening exposures.

2. Since its purchase the manufacture of this type of Coolidge tube has been discontinued in favour of shock-proof, double-focus oil immersed X-ray tubes, which not only give finer detail in X-ray photography and screening, but, being oil-immersed, have a much longer life than the unprotected Coolidge tube, and being enclosed in a hermetically sealed protected container, danger to both patient and operator from X-radiation and/or high tension discharge is completely eliminated.

3. The replacement of the punctured tube by a similar open X-ray tube obtainable from the depleted and obsolescent stock in America involves a cost, at present prices, of Rs.979/-, whereas the cost of the

the new shockproof oil immersed tube unit along with shockproof cables, choke coils and accessories amounts to Rs.2,817/-.

4. In view of the much longer life of this unit and of the complete safety assured to both operator and patient, I have the honour to request you will be good enough to obtain the sanction of the Hon'ble the Resident to its purchase in replacement of the punctured tube. The tube unit which it is proposed to purchase being a Scientific instrument comes under the terms of exception referred to in Rule 7 of Appendix 4 to the Civil Account Code, Vol.1., and the suppliers are the Bangalore Office of Messrs. Victor X-Ray Corporation (India) Limited.

5. Owing to the absence of any provision in the budget of these hospitals for depreciation of X-ray plant, I am unable to find the sum required from the allotment at my disposal for the current financial year, and I have therefore the honour to request that the necessary amount may be provided from the funds at the disposal of the Hon'ble the Resident.

I have the honour to be,

Sir,

Your most obedient servant,

Lt.-Col.,I.M.S.,
Residency Surgeon.

MD (Cantab), FRCSE., IMS.,
RESIDENCY SURGEON.

OFFICE OF THE
HON'BLE THE RESIDENT
IN MYSORE, BANGALORE.
24 SEP 1940
Diary No. 9249.
File No.

THE Secretary to the Hon'ble the
Resident in Mysore, Bangalore.

Subject:— Reserve stock of X-Ray films.

SIR,

I have the honour to forward herewith for favour of perusal and return a bill for Rs. 4387-14-0 received from Kodak Limited., Bombay relating to reserve stock of X-Ray films mentioned in this office indent dated 4th November 1939 and request you kindly to obtain the sanction of the Hon'ble the Resident to the payment of the bill.

C.P. 56 (X)
Secret File III-39

Regarding the extra quantities of reserve of sizes viz. 12 X 15 and 10 X 8, I have the honour to attach herewith copies of letter dated 4th September 1940 from the Kodak Limited., together with a copy of the letter to which it is a reply which are self explanatory. In the circumstances mentioned in the Firm's reply dated 4th September 1940 it is proposed to draw our current requirements of 10 X 8 from the reserve till the extra quantity viz. 60 doz is wiped off and to place an order for an equal quantity of $6\frac{1}{2}$ X $8\frac{1}{2}$ and 4 doz of 14 X 17 the reserve of which they are now prepared to create.

Para 239 ante
in Secret File
No. III/39

As already intimated in my 133/24/39 dated the 12th September 1939 additional allotment for the reserve stock is necessary under A.5. Contingencies - 1940-41.

It will be apparent that the extra cost over the amount originally estimated is only Rs. 180/- as detailed below and in the circumstances mentioned by the firm inevitable (due only to the difference in cost of 10 X 8 size offered in place of $6\frac{1}{2}$ X $8\frac{1}{2}$).

Cost of extra quantities of 12x15 (4 doz) at 25/1/0 and 10x8 (60 doz) @ 10/8/0	Rs. 730/-
Less cost of sizes originally included in the reserve but not reserved (4 doz 14x17 & 60 doz $6\frac{1}{2}$x$8\frac{1}{2}$) Fresh reserve of these sizes viz. 14x17 and $6\frac{1}{2}$x$8\frac{1}{2}$ proposed to be created now and cost met from within the normal allotment of 1940-41.	Rs 550/-
Difference.	180

I have the honour to be,
Sir,
Your most obedient servant,

Lieut.-Col.I.M.S.,
Residency Surgeon, Bangalore.

I have the honour to be,

(73)

Copy of letter No. 1256/30 dated the 1-9-40 from the Residency Surgeon, Bangalore to the Kodak Ltd., Bombay.

Sub:- Reserve stock of X-Ray films.

With reference to your letter Dept 2 dated 6th August 1940 and the bill enclosed therewith it is observed that there is a difference between our requirements and items of the bill in respect of certain sizes - vide statement attached but this has been supported by a foot note in the bill "As 14x17 and $6\frac{1}{2}$x$8\frac{1}{2}$ sizes are not included in the reserve we have supplied extra quantities of 12 x 15 and 10 x 8 respectively".

It is however not clear if by the remark it is implied that you are not asked to keep a reserve of sizes 14 x 17 and $6\frac{1}{2}$ x $8\frac{1}{2}$ or whether it is not possible to keep a reserve of the said sizes, Will you kindly elucidate? In any case we shall not require 135 dozens of 10 x 8 size as reserve.

If, therefore, it is not possible to keep a reserve of $6\frac{1}{2}$ x $8\frac{1}{2}$ size, will you please exclude from the bill (herewith returned) the extra quantity of 60 doz 10 x 8 films and send a revised bill.

Re:- Cold storage charges it is seen from the bill that the storage charges are for 12 months from date viz 2-7-40 (date of the bill) while in your letter it is mentioned as "12 months from 1-4-~~30~~ 40 Will you kindly reconcile?

Copy of letter dated 4th Sept. 1940 from the M/s. Kodak Limited Bombay to the Residency Surgeon, Bangalore.

---:0:----

Thank you for your letter No. 1256/30 of the 1st instant in reference to our Invoice MX 5301 of 2.7.1940.

The footnote on this invoice explaining that as 17 x 14 and 8½ x 6½ sizes are not included in the reserve we have supplied extra quantities of 15 x 12 and 10 x 8 respectively was inserted by arrangement with the Department of Supply, the position being that on Government instructions we had established stocks of 15 x 12, 12 x 10 and 10 x 8 film in India to meet the reserve demands but provision had not been made for 17 x 14 and insufficient in 8½ x 6½. Under the circumstances it was approved that size 10 x 8 be substituted against requirements of such sizes as 17 x 14 to enable immediate 8½ x 6½ requirements and that 15 x 12 be offered against allocations of reserves.

From your letter we gather that your requirements are:-

60 dozens	8½ x 6½
75 "	10 x 8
34 "	15 x 12
4 "	17 x 14

The reserve of 135 dozens 10 x 8 and 38 dozens 15 x 12 was established a considerable time ago and at least in the case of the 10 x 8 it would be very difficult at this stage for us to deduct 60 doz from the reserve and to replace with an equal quantity of 8½ x 6½ . You may, however, draw on this reserve and when our invoice has been settled as it stands this means that you can reduce the 10 x 8 reserve by taking no charge delivery as film is required until the quantity held on reserve is brought down to 75 dozens or less if you wish to continue after then drawing from your reserve.

We can additionally if you wish now create a reserve of 8½ x 6½ film in your name and if you desire us to do this please provide an order for the quantity concerned when we will give this our attention. Upon establishment of this reserve of 8½ x 6½ we will invoice to you plus 5% storage charge in the same manner as the main reserve has been handled.

The desired reserve of 4 dozens 17 x 14 film can also be created if you wish and the procedure would be the same in this case.

In regard to the last paragraph of you letter we regret the error on our invoice which should have read "Plus 5% storage in cold room up to 12 months from 1/4/40" this date being the commencement of Government

financial year. --Actually, the reserve stocks had been made available even prior to that date and the delay in invoicing was due to the fact that certain details had to be concluded before the Department of Supply could finally instruct us.

We have corrected the invoice which is being returned to you with this letter.

Subject:— Purchase of Portable Model Ultra Violet Lamp with stand for the X-ray Department of Bowring & Lady Curzon Hospitals, Bangalore.

=====

SIR,

I have the honour to request you to kindly obtain the sanction of the Hon'ble the Resident to the purchase from Messrs. Malgham Brothers, Bombay, of a portable model Ultra Violet Lamp with stand for the X-ray Department of the Bowring & Lady Curzon Hospitals, Bangalore, at a cost of Rs.550/- excluding packing and forwarding charges.

At present the big apparatus is brought all the way from the X-ray department to the various wards etc., every time there are cases to be treated at bedside and much inconvenience is caused thereby, - not to mention the possible damage to the apparatus. It is therefore very essential that a Hospital of our size should possess a 'Portable Ultra Violet Lamp.

Messrs. Malgham Brothers are prepared to effect immediate supply and I consider their offer very reasonable. The apparatus is not available with the International General Electric Co., Bangalore, and Government would stand to advantage if the apparatus is obtained this year as I am sure the prices are likely to go up still further on account of War. The article is of such description as to come within the terms of the exception referred to in Rule 7 Annexure A of Appendix 4 C.A.C. Vol.1

Page 1429 C.A.C Part up

The cost can be met from the allotment under Mysore Assigned Tract - Medical - Hospitals and Dispensaries Contingencies - Cost of Medicines and Instruments 1941-42 budget.

Copyoof letter No.65/213/43-SE/I dated 6/12/43 from the Director General, Indian Medical Service, New Delhi, to Lieut-Col.R.S.Aspinall, I.M.S., Residency Surgeon, Bangalore.

Subject:- X-ray and Electro-medical Equipment- Estimates for 1943- Firm demands against.

Reference this office letter No.65/116/43-SE/I dated the 20th February 1943, and your replies thereto.

2. As India Supply Mission, Washington now wants the original estimates furnished to be converted into 'firm orders', you are requested to furnish this office with your 'firm demands' against the estimates given in reply to our letter referred to above.

3. It may please be noted that necessary financial sanction should be obtained by you for your 'firm demands for these articles.

4. No additions to the original estimates should be ordinarily made except in cases when complete X-ray sets are required when possibly a few may be accepted.

5. As these 'firm orders' are to be transmitted to U.S.A. urgently it is essential th t your reply should be in by the 24th December 1943.

Copy of letter No.65/116/43-SE/I dated 20/2/43 from the Director General, Indian Medical Service, New Delhi, to the Residency Surgeon, Bangalore.

Subject:- Estimate of India's requirements of medical X-ray and electro-medical equipment for 1943.

---

1. An attempt is now being made to estimate India's total requirements of medical X-ray equipment and electro-medical equipment for the year 1943, and in this

connection it would be of considerable assistance to us if you will kindly furnish the following information by the 4th March:-

(a) quantities already for 1943, stating sources of supply.
(b) an estimate of your future requirements for 1943.

2. This information is required in respect of the following:
(a) X-ray sets.
(b) X-ray accessories.
(c) X-ray films.
(d) X-ray chemicals and sundries.
(e) electro-medical equipment and accessories.

3. It will be sufficient if the quantities are given in terms of rupee value based on the current rupee prices.

4. The figures are required by the Americal authorities in order to base forward planing, it is therefore necessary to emphasise that unless they can be obtained very quickly there is always the risk that there will be nothing obtainable because it has not been planned for.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat,

No. Lol 1334

Dated Bangalore, 30th December 1943.

FROM

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Law Department.

To

The Secretary to the Hon'ble the Resident in Mysore,
BANGALORE.

Sir,

Subject:- Supply of Xray films for the Medical Department.

I am directed to state that the Senior Surgeon with the Government of Mysore reports that considerable difficulty is being experienced for the last 3 months to obtain a proper supply of Xray films of the required sizes. It is understood that the annual requirements of films for the Bowring - Hopsital, Bangalore and the General Hospital, Madras have been released in advance from the Defence Stores and stocked with Messrs.Kodak Ltd. I am to request that if there is no - objection, the Government of India may kindly be moved to make arrangements for reserving the Xray films required for the State Medical Department during the current year from their stocks and for their supply to the Medical Department on a similar basis. The requirements of the State Medical Department for these films will be furnished on receipt of a reply in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

Secretary to Government,
Law Department

No.F-51-1/39-H.
Government of India in Secret file (35)
EDUCATION, HEALTH AND LANDS DEPARTMENT.
Simla, the 2nd October, 1939. 111-39 (X)

To

The Chief Secretaries to all Provincial Governments

The Chief Commissioner, Delhi, Ajmer Merwara, Baluchistan, Andaman, and Nicobar Islands.

Sir,

With reference to 1. the Defence Coordination Departments 2. this Department letter No.F.51-1/39-H, letter No.396/1/P.S.O.C.(I), dated 29th August, 1939. I am directed dated 12th August, 1939
C/P 19(Z) to say that with the outbreak of war and in view of the experience already gained of the working of the scheme suggested in that letter the Government of India now consider it necessary to make fresh recommendations for ensuring as far as possible that adequate stocks of X-ray films continue to be available in India for all consumers whether they work under Government control or not. The recommendations contained in the previous letter are now superseded by those that follow.

2. Since War broke out it appears that the stock of available X-ray plates and films has fallen below even 7.5 weeks requirements of the Military and Provincial Medical Departments excluding all other consumers, and it is not certain how far normal supplies can continue to be received in India. In these circumstances the Government of India consider it essential to make arrangements which do not entirely depend on supplies being received regularly from the United Kingdom and as Messrs. Kodak Ltd., have factories in America Canada and on the Continent, in addition to the United Kingdom, and are prepared to arrange for sufficient cold storage accommodation (which means that films and plates can be left in good condition for a longer period than in air-conditioned storage), to cover India's normal supply for six months, they are entrusting Messrs. Kodak Ltd., with the provision of India's demands.

3. In order to enable a satisfactory system of supply to be developed the Government of India consider it to be essential for 1.Provincial Governments to cooperate in the following scheme for 2. you
ascertaining the total demand for X-ray films and plates throughout India in the next six months.

4. (a) The scheme is that 1. the Provincial Governments should
2. you.
Submit indents covering the requirements of all Civil Government institutions using X-ray films, including hospitals, clinics, dispensaries, sanatoria etc. and Police, to the Director General, Indian Medical Service, by the 15th November, 1939, and also as many indents from other sources (Local Fund, Mission, Private hospitals etc., and from private practitioners) as it can collect by that date. These indents should be for six months requirements from 1st December, 1939, and should specify the sizes of X-ray films and plates required and the amount in dozens. As Messrs. Kodak Ltd., are extending storage facilities at Bombay, Calcutta, Madras and Lahore the demands should also specify where delivery is required and, if supply is desired from more than one of those centres, the amount required at each centre should also be given.

(b) There are many existing contracts both with Kodak Ltd., and other firms, which will cover delivery for the six months' period or for part thereof. Where such contracts exist the amounts required to be supplied under them, including requirements as to any reserve stocks to be held, should be included separately in the indents and details should be given of the firm with which the contract is placed and the period covered by it. It will thus be possible both to avoid overlapping of orders and for the Director General, Indian Medical Service, to estimate the extent to which reliance is now being placed for supply of X-ray films on sources,

P.T.O.

of supply which are risky and the probable extra demand on Ko. Ltd., should any other source of supply be interrupted. When contracts with firms other than Kodak Ltd., expire the Provi you are Government is strongly recommende to weight the importance of chosing a firm which is in a strong position for continuing supplies in all contingencies before entering into any fresh contracts.

(c) The Government of India have already asked Kodak Ltd., to obtain as quickly as possible stocks equal to the estimated needs of India for six months, and on receipt of the indents now recommended the amounts required by each consumer will as far as possible be reserved from those stocks. All stocks will be stored in the cold storage rooms of Kodak Ltd., at their various branches and will be issued as required by the indentors. Kodak Ltd., have been authorized to make a small additional charge for providing storage facilities and the Government of India are confident that in view of the need for providing increased storage the Provincial Government you will agree that this is reasonable.

(d) All indentors on Kodak Ltd., will pay direct, and not through the Director General, Indian Medical Service, for their stocks on receipt of bills from Kodak Ltd.

5. With reference to the recommendation now made that the Provincial Government should now collect the demand from yo sources other than those directly under 1. its control, 2. your as Municipal, District Board Mission, private hospital, etc., and private practitioners generally, the Government of India consider that in the interests of securing that only bona fide normal demands from genuine institutions are made 1. the Provincial 2. you are Government is in the best position to gather such demands and to ensure that they are reasonable and not inflated and that 1. it 2. you will readily recognize the importance of this aspect of the matter and be willing to undertake this work. It is recognised that delays may occur in collecting the demands from such sources and therefore it has been suggested that the submission of 1. the Provincial Government's 2. your demands should not be delayed beyond the 15th November because demands from private sources are incomplete. Demands received later can be submitted to the Director General, Indian Medical Service as they are received.

6. I am now to recommend that steps be taken to submit the statement of requirements by 15th November, 1939, in as complete a form as possible and to emphasize that grave risk of complete failure of supplies will be undertaken by any institutions which fail to take advantage of the scheme outlined in the preceding paragraphs and choose to rely on other much more insecure sources of supply than Kodak Ltd.

I am, Sir,
Your obedient servant,

Sd/- S.H.Y.Oulsnam,
Joint Secretary,
Department of Education, Health and Lands.

No. 7238.

GOVERNMENT OF INDIA.

DEPARTMENT OF SUPPLY.

(4)
(44)

New Delhi, the 16th April 1940.

To

Messrs. Kodak Limited,

Kodak House,

Hornby Road,

BOMBAY.

Sirs,

I am directed to refer to your letter dated the 12th of March 1940, and to say that the Government of India note your inability to accept the proposals set forth in this Department letter No.7238, dated the 27th of February 1940, and your insistence that the arrangements for the reserve should be made, as far as possible, on the basis of outright purchase by Government.

2. In this connection, I am to invite your attention to this Department letter No.5048, dated the 20th September 1939, in which payment for the stocks you were authorised to order was guaranteed by this Department. But in paragraph 6 of that letter it was made clear that actual payment would be made by indenting Departments, hospitals, etc., for the reserve held on their behalf on receipt of bills issued by you. It is, therefore, evident that outright purchase of the stocks by the Central Government was not contemplated, and the assurance, in paragraph 6 of that letter, was only intended to cover you against the risks incidental to the ordering of stocks for the use of a large variety of institutions, among whom there might well be many who are not your regular customers. I am, therefore, to request that you should now submit bills and collect payments for the quantities indented for by the following classes of institutions for <u>six months' requirements.</u>

(1) All institutions under the control of the Central and Provincial Governments, as well as Government aided institutions. The bills, in this case, should be sent to the Governments concerned, copies being endorsed to this Department. A list of such institutions will be sent to you on receipt of your reply.

(2) All railway institutions. In this case, the bills should be sent to the individual Railway administration which placed the indents, and copies endorsed to this Department.

(3) Certain institutions in Indian States. (A list will be sent to you, and the bills should then be sent to the States concerned).

P.T.O.

(43) To enable this department to prepare the list

mentioned in (1) and (2) above, I am to request you to send a statement showing the names of all the institutions who have placed indents, and the value of each indent.

3. The surplus that will remain out of the stocks you were authorised to order after meeting the above should continue to be absorbed by normal sales in accordance with the instructions that were issued in our letter No.7238, dated the 17th January, 1940. In the case of all those who have submitted indents, other than those to whom you are now to send bills for collection, you should make arrangements direct, it being understood that any disposal of stocks resulting from such arrangements will be treated as made from the surplus.

4. In the same manner, all additional demands made by the Defence Services, subsequent to the receipt of this Department letter No.7328, dated the 17th January 1940, should be met from this surplus, as already indicated in paragraph 3(1) of this Department letter No.7328, dated the 27th February 1940. This would thus apply to your tender for the supply of X-Ray films for 1940-41, which was accepted by the Director, Medical Services in his letter No.Z-20516/7/DMS2 of 18th March 1940.

5. It is hoped that the arrangements detailed above will result in your obtaining payment for the greater part of the stocks within a reasonable period. It will be necessary, at the end of such peribd, to review the whole position, and only then would it be possible to determine to what extnet, and in what manner, the Government of India should be called upon to implement the assurance given to you in this Department letter No.5048, dated the 20th September, 1939.

6. You will observe that these proposals are based on the original scheme whereby stocks were laid in to cover a reserve for 6 months basis. You are not required to take any action in connection with the scheme previously discussed for reducing the reserve to a 3 months basis. Such action will now be left to be taken by the institutions themselves which have indented for and pay for a 6 months reserve, in accordance with instructions which we will later issue to Provincial Governments etc.

7. An early reply is requested.

I am, Sirs,

Your obedient servant,

Sd/-

Deputy Secretary to the Government of India.

A copy.....

A copy of the above is forwarded for information, in continuation of this Department Unofficial Memorandum No. 7238, dated the 15th April 1940, to:-

1. The Education, Health & Lands Department.

2. The Railway Board.

3. The Medical Directorate, Army Headquarters.

4. The Office of the Director-General, Indian Medical Service.

Sd/- L. Bookaliyan
Under Secretary to the Govt. of India.

No. 7238.
GOVERNMENT OF India.
Department of Supply.
Simla, the 22nd May, 1940.

To

The Chief Secretaries to all Provincial Governments.

The Chief Commissioner,
Delhi/Ajmer-Merwara/Baluchistan/Andaman and Nicobar Islands.

Sir,

C/p 38 m/para

I am directed to invite your attention to the Government of India, Education Health & Lands Department, letter No. F-51-1/39-H, dated the 2nd of October, 1939. In this letter proposals were set forth for the creation of a Central Reserve of X-ray films in which, however, the six months' requirements of each consuming institution would be definitely earmarked for that institution. Since then, indents have been forwarded by the institutions under your control, and also on behalf of non-Government consumers, and have been forwarded to Messrs. KODAK Limited. As the placing of orders for the stocks required for the reserve could not be delayed until the receipt of indents from all these institutions, Messrs. KODAK were authorised by the Government of India to take immediate steps to import a certain quantity of X-Ray films then considered necessary to meet all probable requirements. At the same time, payment was guaranteed by the Government of India, though actual payments were to be made by the indentors on receipt of bills from Messrs. KODAK. The X'ray films so ordered have now arrived, and it is now necessary to arrange for payments to be made to Messrs. KODAK.

C/p 38 m/para

In paragraph 4(d) of Education, Health and Lands Department letter No. F.51-1/39-H, dated the 2nd of October, 1939, it was proposed that indentors should pay direct to Messrs. KODAKS. Since then, it has been found that this course would involve serious practical and administrative difficulties. The best way of overcoming these difficulties appears to be for provincial Governments to make payments to KODAKS on behalf of all Government and Government aided institutions. KODAKS are, therefore, being asked to submit to you bills in respect of the indents made by institutions in the attached list. I am to request your co-operation in effecting a speedy settlement of these bills.

2. Although at the beginning of the War it was anticipated that six months reserve would be required to make each institution safe from such interruption of supplies as then appeared possible, the subsequent development of the War has made it appear that, at this stage a three months' reserve would be adequate to cover such dangers as at present need guarding against. It is, therefore, suggested that there would be no objection to any of the institutions, which * have indented for a six months' reserve and had it earmarked for them, now deciding to bring half that reserve into use and reducing their

P.T.O.

reserve to cover three months' requirements, should they wish do so. As the payment being asked for by KODAKS, as explained in the previous paragraph, will make the reserve their own property, these institutions, are quite free to use the reserv as they think fit, and to consume it when it appears that it i too large in view of current circumstances, of indeed not needed at all.

I am, Sir,
Your obedient servant,

Sd/-
Secretary to the Government of India

Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

Dear Sir,

C/49

Thank you for your letter No.RF.130-40/G & A of the 5th May forwarded to our Bombay Office which they have passed to us as you are in territory serviced by this branch.

The position regarding X-ray films has been most erratic since the outbreak of war due to conditions familiar to you and too numerous to outline. In spite of these difficulties, supplies have arrived from time to time, and although these have been inadequate in most instances, we have been able to help consumers all over the country to a small extent. This assistance, as meagre as it has been, has been greatly appreciated by all coneerned, among whom are the hospitals mentioned in your letter under reference.

Our efforts have recently resulted in procuring a license to obtain supplementary supplies of X-ray film from the U.S.A. In the meantime, supplies are on their way from our Harrow (England) factory, and if you will please refer to any of the institutions under your control, you will learn that they received reasonably good supplies last month. This indicates that shipments have begun to arrive, and it is expected that they will continue to do so from now on.

In view of the circumstances mentioned above, we wish you to be assured that just as soon as we get stocks, we shall service you as best we can consistent with receipts. No one realises the extreme urgency of this matter more than we do, and we do want you to feel that limited and erratic supplies have not been such because of any lack of effort on our part.

Yours faithfully,
KODAK LIMITED,

Manager.

Subject:— X-ray equipment of the Bowring & Lady Curzon Hospitals, Bangalore.

SIR,

I have the honour to invite a reference to Memorandum No.F.284/A-28 dated 5th December 1928 from the Government of India, Foreign and Political Department forwarded with your endorsement No.11528/157-1927 dated 13th December 1928 according sanction to the purchase and installation of a new X-ray equipment at these Hospitals at an estimated cost of Rs.25,600/-. The equipment has now been in continuous use for nearly sixteen years i.e. far more than its usual life and to all intents and purposes now useless and obsolete. Over and above this there is an exceptional strain on this apparatus on account of the heavy increase in population due to the military concentration in Bangalore. I should mention in this connection that the long service this equipment has been able to give is only due to the careful and efficient handling of this apparatus by the present Radiologist, Dr. Jayaram who has built up this Department by his own skill and industry. Even with this obsolete equipment he has been able to produce Radiograms of a very high order. However we cannot carry on indefinitely under the present conditions as the machine may break down at any time.

Personally I was in favour of waiting till after the cessation of hostilities but in view of the Radiologist's apprehensions I asked the local Engineers of the Victor X-ray Corporation to inspect the apparatus and give me their candid opinion. They feel that the equipment has served more than its normal life and it is highly desirable that in the interests of the efficient working of an institution of the type of the Bowring & Lady Curzon Hospitals it should be replaced at as early a date as possible with a latest model KX-11-33 diagnostic X-ray unit complete with accessories.

In view however of the Government of India's basic policy not to spend money on any capital work or project which are not very urgent and inescapable I did not include the necessary provision required for the renewal of the X-ray equipment in the next year's budget. Now that the Victor X-ray Corporation are emphatically of opinion, with whom the Radiologist and myself agree, that the equipment should be replaced as urgently as possible and that I should negotiate with the authorities concerned from now for the necessary sanction as it will take 12 to 15 months for the supply I asked the firm to submit their quotations, which they have submitted and I enclose herewith in original. It will be seen that the whole unit complete with accessories would cost about Rs.57,200/-. They agree that if at the time of

of delivery the prices are lower the unit would be billed at the then prevailing rate.

Not put up - but vide para 5 of U.O. 11 (5)

Under rules 3 & 5 of the rules for the supply of articles for Public services - Appendix 4 C.A.C. Vol.1 I request that sanction of the Government of India may kindly be obtained to the renewal of the X.ray equipment at an estimated cost of Rs.57,200/-. For the same reasons advanced in respect of the purchase and installation of the present equipment - vide your letter No.11528/157-1927 dated 13th December 1928 to the Government of India, it is most important that the whole indent should be in the hands of a company whose representative has personally inspected the present installation and has indicated the actual requirements for a new and improved installation. It is therefore greatly preferable to have the supply arranged for by the Victor X-ray Corporation which will procure from America the necessary apparatus and not only deliver but fit up and supervise the apparatus while in use and be available for periodical inspections.

The present installation will not be sold but will be kept as a standby for any emergency and also for minor and superficial X-rays.

Not for U.O.

The expenditure has to be met from the accumulated Bangalore share of surplus revenues. In this connection please refer to your U.O. No.R.F.318-43 dated 11th October 1944. I trust that this is a scheme which will have a reasonable chance of immediate acceptance and sanction by the Political Department.

As the firm have agreed to accept the order in anticipation of Government of India's sanction and are even prepared to treat the order as cancelled in the event of the Government of India's refusal to accord their immediate sanction I intend with your approval to place an immediate order with the firm for the supply of the equipment. Kindly confirm.

I have the honour to be,
Sir,
Your most obedient Servant,

Lt.-Colonel, I.M.S.,
RESIDENCY SURGEON, BANGALORE.

X-ray equipment of the Bowrin. and Lady Curzon Hospitals Ban.alore.

Sir,

I have the honour to refer to the correspondenc. endin. with memorandum from the ~~Xxxxxxxxxxxxxxx~~ late Foreign and Political Department No.F.284/A-28,dated the 5th Decr.1928, accordin. sanction to the purchase and installation of a new X-ray equipment at the Bowrin. and Lady Curzon Hospitals,Ban.alore, at an estimated cost of R.25,000.

2. The above X-ray equipment has been in continuous use for nearly sixteen years, ~~etc~~ which is far more than its ~~usual~~ normal life, and is to all intents and purposes now - useless and obsolete. There is also an exceptional ~~strain~~ strain on this apparatus now on account of the heavy ~~increase~~ increase in population due to the military concentration in Ban.alore. The long service this equipment has been able to .ive is only due to its careful and efficient handlin.. It is not however possible to carry on - indefinitely under ~~the~~ present conditions as the machine may break down at any time.

The Army medical authorities frequently call upon the services of this apparatus & this is an additional reason why a complete breakdown would create acute difficulties.

3. In view of the Radiologist's apprehensions - re.ardin. the efficient workin. of the apparatus, the local En.ineers of the Victor X-ray Corporation were recently asked to inspect the machine and .ive their opinion. They feel that the equipment has served more

S.S.

MGIPC—S&—1755(S&P)MFP—(M-944)—6-3-39—60,000 Pads.

more than its normal life and that it should be replaced at as early a date as is possible with a latest model KX-11-33 diagnostic X-ray unit complete with accessories. It is highly desirable therefore that in the interests of the efficient working of an institution of the type of the Bowring and Lady Curzon Hospitals, the opinion of the firm should be accepted and the equipment replaced at once. As it will take 12 to 15 months for the supply of the apparatus, it is ~~x~~ time now to obtain the necessary sanction for its purchase. The firm was therefore asked to submit their quotations and I enclose an estimate No. 20005/42011, dated the 20th Octr.1944, for Rs.57,200/-received from them. The firm agree that if at the time of delivery the prices are lower, the charges will be limited to the then prevailing rate.

4. It is most important that the whole indent should be in the hands of a company whose representative has personally inspected the present installation and has indicated the actual requirements for a new and improved installation. It is therefore greatly preferable to have the supply arranged for by the Victor X-ray Corporation which will procure from America the necessary apparatus and not only deliver but also fit up and supervise ~~the apparatus~~ it while in use and inspect it periodically. In this connection I invite a reference to para 5 of the Resy.letter No.10581/157-27, dated the 15th Novr.1928,

5. In the circumstances, I request that H.E.the Crown Reptve. may be pleased to sanction the purchase of a new X-ray equipment for the Bowring and Lady Curzon Hospitals, at a cost not exceeding Rs.57,200. As the Resy.Surgeon was not originally in favour of replacing the apparatus during the present hostilities, no provision for the renewal of the X-ray equipment was made in the next year's budget. I therefore request that necessary provision may kindly be included in the budget for 1945-46. The expenditure will be met from the Bangalore Cant. Station share of the M.A.T.Surplus which has now become very substantial.

6. I have authorised the Residency Surgeon to place the order with the firm for the supply of the equipment on the understanding that they will treat the order as cancelled if ultimately sanction is withheld ~~In case the Pol.Dept.are not prepared to sanction the proposal.~~ I request that my action may kindly be approved.

Since the need for this apparatus is inescapable & of great urgency

7.

Political Department
EXPRESS LETTER.

From

Polindia, New Delhi,

To

Resmys, Bangalore.

No.D.2164-A/44. Dated New Delhi, the 31st January 1945.

X-Ray equipment of the Bowring and Lady Curzon Hospitals, Bangalore.

.....

Reference your letter No. RF.130-40/G&A dated the 11th November 1944.

2. Messrs. Philips Electrical Co. (India) Ltd., Calcutta, have offered an X-Ray set, the output of which is larger than that of the Victor's X-Ray Corporation and suitable for all purposes @ Rs. 38,750/- F.O.R. Calcutta and installed at site. A short description of the equipment which is ready for immediate delivery from the existing stocks, is enclosed. In the circumstances, it is requested that, if you see no objection, the order which has already been placed with the Victor X-Ray Corporation by the Residency Surgeon, Bangalore, may kindly be cancelled and an indent in the prescribed form placed on the Director General of Munitions Production, Calcutta with an intimation to this Department. Necessary provision on this account is being included in the budget estimates of the M.A.T. for the year 1945-46.

3. It may also be intimated as to what use is being made of the installation, which was replaced in 1929 and in case it is no longer serviceable, the question of its disposal to the best advantage of the Crown Representative may please be considered and your views in this behalf furnished to this Department.

.....

The issue of the above has been authorised.

P.N. Kathpalia

for Secretary to His Excellency the Crown Representative.

Dear Sir,

Sub: X-ray Equipment.

With reference to the recent telephone enquiry made by your Mr. S.C. Ghosh, we beg to submit herewith particulars about high-power X-ray Equipment which we are in a position to offer.

Please note that we have presently available for supply ex stock, subject to prior sale, a 4-Valve Apparatus in combination with a 2.0 mm. Rotating Anode Tube and a Universal Examination Couch respectively. A short description of the Equipment is given here below:-

X-ray Unit.	"WATSON R-IV" 4-Valve X-ray Apparatus. Output:- Tube currents upto 400 mA. (mean value) Penetration ..... 85 kvP. // provided suitable mains supply is made available at site of erection.
X-ray Tube.	Philips "ROTALIX" 2.0 mm. Rotating Anode Tube with a pair of Shockproof cables.
Examination Couch.	Philips Universal Tilting Couch type U.S.8 incorporating Potter Bucky Diaphragm, Screen & Cassette Holder and Fluorescent Screen.

PRICE of the above Equipment .. Rs.38,750/-.
(excluding Rotary Converter or "Scott" Transformer, if required) f.o.r. Calcutta. Installed at site subject to our current terms and conditions of sale.

Depending on the nature of electric supply available at site of erection, either a suitable Rotary Converter with Step-down Transformer, or a 3/1 phase- and volt- reducing Transformer may be required. In either case, price of such item or items will be extra.

We shall submit a detailed specification of the Equipm offered, together with illustrated documentation, within the ne few days.

If buyer requires a separate Unit for screening, we s offer additional equipment under this heading. Full particula in this connection will also be given in our next communicatio

The R-IV. Apparatus and the Examination Couch type U can be inspected at our Calcutta Head Office.

Assuring you of our best services,

We are,-Dear S
Yours faithfully

EXPRESS LETTER.

No.R.F.130-40/G&A.

From Resmys, Bangalore.

To Polindia, New Delhi.

X-Ray equipment of the Bowring and Lady Curzon Hospitals, Bangalore.

Ref

Reference your express letter No.D.2164-A/44, dated 31st Jany. 1945. Regret that the Watson X-Ray Set offered by Messrs.Philips Electrical Co.(India) Ltd., Calcutta is entirely unsuitable as from the specification given the mains supply to the hospital would have to be ~~completely changed~~ altered and a special Scott transformer installed. In addition, the Victor X-Ray Corporation set already ordered by the Residency Surgeon is preferable for the following reasons: -

(1) It includes serial radiography and planigraphic attachment which is not included in the Watson set, and I am advised that by the time these and other accessories were added, the overall price of installation of the ~~latter~~ Watson set would ~~be as much~~ as ~~if not more than in the case~~ that of ~~the set already ordered.~~

Equal, if not exceed, that of the Victor set

(2) The Victor X-Ray Corporation maintain a stock of spares locally and are available on the spot for inspection and servicing. The old installation was in their hands for the purpose of servicing and the firm has always given every satisfaction in this respect.

(3) The staff at the Bowring & Lady Curzon Hospitals are all trained and experienced in the Victor X-ray equipment, and it is undesirable to change to another type.

(4) The Victor X-ray Corporation have already obtained an import ~~xxxxxx~~ permit for the set ordered by the Residency Surgeon.

For these reasons I am not placing an indent for the Watson set on the Director General of Munitions Production, Calcutta, and have not, pending your further reply, asked the Residency Surgeon

(23)

to cancel his order with the Victor X-ray Corporation.

2. As regards para. 3 of your letter under reference, the old set is, in default of anything better, still in use in the hospital. But it is badly worn and out of date in type, and not up to the work which has to be done there. As stated in para.7 of my letter No.R.F.130-40/G & A dated 11th Novr. 1944 it is proposed to keep it as a standby for emergencies and also as an auxiliary set for minor and superficial work.

Express Letter

From - Polindia, Simla.
To - Resmys, Bangalore.
No.F.376-A/44. Dated the 7th March 1945.

X-Ray equipment for the Bowring and Lady Curzon Hospitals, Bangalore.

Reference correspondence resting with your express letter No.RF.130-40/G&A, dated the 24th February 1945.

2. In the circumstances now explained, administrative approval and expenditure sanction of the Crown Representative are accorded to the purchase of a new X-Ray equipment for the Bowring and Lady Curzon Hospitals, Bangalore, at a cost not exceeding Rs.57,200/- (rupees fiftyseven thousand and two hundred only). The Crown Representative is also pleased to approve of your action in authorising the Residency Surgeon, Bangalore, to place the order with the Victor X-Ray Corporation in anticipation of sanction. The original estimate received with your letter No.RF 130-40/G&A, dated the 11th November 1944 is returned herewith.

3. As regards paragraph 2 of your express letter under reply, it may be pointed out that paragraph 3 of Polindia express letter No.D.2164-A/44, dated the 31st January 1945 pertains to the equipment, the replacement of which was sanctioned in December 1928 and not to the present installation. In paragraph 8 of the Residency letter No.10581/157-1927, dated the 15th November 1928, it was intimated that the set then in use would not be sold but utilised for certain other purposes. It is, therefore, requested that the question of disposing of the set which was in use prior to the one newly purchased in 1929 may kindly be considered and your views furnished to this Department at an early date.

The issue of the above has been authorised.

P.N. Kaithwaramy

Bangalore, dated the 21st March 1945

To

The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

Sir,

With reference to your No.R.F.130-40/G&A dated the 20th March 1945 I have the honour to state that the installation which was purchased in or about 1915 and replaced in 1929 became unserviceable years ago and on expert opinion of the local engineers (copy attached) who were of the opinion that the entire equipment having been 29 years old had very little value except as scrap was disposed of as unserviceable locally at a cost of Rs.300/

I have the honour to be,
Sir,
Your most obedient Servant,

Lt.-Colonel, I.M.S.,
RESIDENCY SURGEON BANGALORE.

PTO

Letter No.20005/4560 dated the 29th March 1944 from M/s. Victor X.ray Corporation, Bangalore City, to the Residency Surgeon, Bangalore.

We are in receipt of your letter No.5687/154 dated the 27th instant. I visited the Hospital this morning and inspected the old Watson's X-ray apparatus and motor generator. As the equipments are 29 years old and lying for nearly 15 years the condition of the insulation is extremely doubtful. The entire equipment is antiquated and apart from some of the meters and switches has very little value except as scrap. It is my personal opinion that the value of the entire equipment would be round about Rs.300/-

Quartz Burner for X-ray Department.

Sir,

I have the honour to state that the Ultra Violet Ray Quartz burner in use in the X.ray Department (sanctioned in Proceedings No.R.F.130-40/G&A dated 16th March 1943 has worn out on account of continuous strain and has become unserviceable. Messrs. Malgham Brothers, Bombay who was asked to state whether they could supply one for our use has informed that they can supply the Burner in two months time at an approximate cost of Rs.350/- the exact price depending on their landed cost. The Burner is not available with any other firm. As already stated in my U.O. No.1836 dated 20th September 1941 the firm no longer gives credit for burnt out burners.

NO:5817 /28.A

Office of the Residency Surgeon,
Bangalore, dated 11th Feb. 1947.

From - The Residency Surgeon,
To - The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

Purchase of new X-ray apparatus - Bowring and Lady Curzon Hospitals - Payment of Insurance charges.

.....

Sir,

Reference your No.R.F.130-40/G&A dated 20th March 1945.

I have the honour to state that Messrs. Victor X-ray Corporation (India) Ltd., Bangalore have submitted a bill for Rs.59053-11-0 for the supply of one new KX-11 X-ray unit for the Bowring & Lady Curzon Hospitals, Bangalore, the purchase of which at an estimated cost of Rs.57,152-5-0 was sanctioned in Political Department No.F.376-A/H dated 7-3-46. The difference of Rs.1901-6-0 between the estimated cost and the amount of the bill now submitted is for packing and Insurance charges not included in the original quotations submitted by the Company as their terms of supply of the apparatus are only F.O.R. Bombay. In view of the capital cost of the Unit it was necessary to insure the unit while in transit from Bombay to Bangalore and upto the date of its installation at the Hospitals. According to the terms&conditions of sale (vide overleaf of quotations) the Unit is covered by insurance upto the Company's godowns only and additional insurance is debitable to the Customer's account. I therefore request you to kindly obtain the sanction of the Hon'ble the Resident in Mysore, Bangalore, for the payment of the

(5) difference in cost (viz., Rs.1901-6-0) between the sanctioned amount and the amount now billed for by the Company.

I have the honour to be, Sir,
Your most obedient Servant,

.....

Lt.-Colonel, I.M.S.,
Residency Surgeon, Bangalore.

X-Ray equipment for the Bowring and Lady Curzon Hospitals, Bangalore.

- - -

Sir,

I have the honour to refer to express letter from the Political Deptt. No F 376-A/44 dated the 7th March 1945, sanctioning the purchase of a new X-Ray equipment for the Bowring and Lady Curzon Hospitals, Bangalore, at a cost not exceeding Rs.57,200/-. The estimated cost of the equipment was Rs.57,152-5-0 (vide enclosed quotation), but Messrs Victory X-Ray Corporation (India) Ltd. have now preferred a bill for Rs.59,053-11-0 for the supply of ~~one~~ this ~~new KV-11 X-Ray~~ unit. The excess is due to packing and insurance charges not included in the original quotations submitted by the firm, as their terms of supply are only F.O.R. Bombay. In view of the capital cost of the unit it was necessary to insure it while in transit from Bombay to Bangalore and up to the date of its installation at the Hospitals. According to the terms and conditions of sale (printed on the reverse of the quotation) the unit is covered by insurance up to the Company's godowns only and additional insurance is debitable to the customer's account. In the circumstances I request that revised sanction may kindly be accorded to the purchase of the X-Ray equipment at a cost of Rs.59,053-11-0.

I have, etc.,

Resident.
